

How long does the result remain valid?

The result of the placement test remains **valid for two semesters**.

The results of the placement tests in the **first half of the year** (usually January, March and April) are valid for the subsequent summer semester and the following winter semester. The results of the placement tests in the **second half of the year** (usually July, September and October) are valid for the subsequent winter semester and the following summer semester.

Example: If you take the placement test at the beginning of the summer semester 2022, the result is valid for this summer semester 2022 and the winter semester 2022/23. You have to retake the placement test if you want to attend a class after winter semester 2022/23.
